# **MEDICAL ASSISTING (AAS)**

Award: Associate of Applied Science Degree

No. of credits required: 60

For more information: Contact Brittany Arkins, 443-412-2738, barkins@harford.edu, or Admissions, 443-412-2109.

### **Program Description**

The Associate of Applied Sciences degree in Medical Assisting at Harford Community College is a career program designed to prepare students for employment as medical assistants immediately upon completing the course of studies. The program prepares students to work in an administrative and clinical capacity in a variety of medical office and clinical settings. Students learn the knowledge, technical skills and work ethic that are required for an entry level position in medical assisting. The program includes both classroom theory and clinical practice. Graduates of the program are eligible to test for the Registered Medical Assistant (RMA) through American Medical Technologists (AMT) or the Certified Medical Assistant (CMA) through American Association of Medical Assistants (AAMA). Please note that, generally, individuals who have been found guilty of a felony, or pleaded guilty to a felony, are not eligible to take the exam. However, the Certifying Board may grant a waiver based upon mitigating circumstances.

Administrative duties performed by medical assistants include general medical office procedures, scheduling appointments, medical billing, and coding. Clinical duties include recording medical histories and vital signs, preparing patients for examination and procedures, performing laboratory tests, pharmacology and injection training, and phlebotomy and EKG training.

## **Program Goals**

Upon completion of the program, the student will:

- Perform clinical skills within the scope of practice for a medical assistant: phlebotomy, injections, EKG (electrocardiogram), obtaining lab specimens, and vital signs.
- Perform executive administrative skills within the scope of practice for a medical assistant including; scheduling, billing and coding.
- Possess knowledge of legal implications and ethical considerations in an ambulatory healthcare setting.
- Follow the American Association of Medical Assistants (AAMA) Code of Ethics.
- 5. Be eligible to take the American Association of Medical Assistants (AAMA) Examination for national certification.
- Have completed 160 hours of unpaid externship in an ambulatory healthcare setting.
- 7. Demonstrate professionalism and effective communication skills.
- Qualify to secure an entry level employment position as a medical assistant

## **Employment Information**

Medical assisting is one of the fastest growing health professional occupations in the United States. According to The Bureau of Labor Statistics, employment of medical assistants will continue to grow much faster than average through the year 2019 as the health care industry expands because of technological advances in medicine and the growth and aging of the population.
